ADDENDUM No. 3 TO RFP No. PT-2671-591479

The following question was asked by a source:

We've imported the envelope STEP file available on the RFP website (10229971-1A.STEP) and have a question: Is the large, conic "gouge" in the envelope near the ESS interface plane real, or is there some flexibility there?

In response:

A New verstuib if 10229971 is being generated the form entitled AMRSRA Addendum 3 is a quick answer which should keep you working.

Thank you,

Patrick Thompson
